### INTRODUCTION

Education is such a concept that it cannot be explained in one word. Scientists and poets have thought about it for centuries, starting with Eastern thinkers, but they also defined the aspects of education. They managed to prove how perfect education is. no, because man is a perfect being.

Every society feels the need to produce instructions that organize its people in the direction of certain goals and interests, and encourage creativity, and sets itself the task of forming immunity against evil ideas against them. Because today, the social, economic, and scientific problems that the state and people have set before themselves without instilling the idea of national independence into the minds and hearts of people, especially young people, into spirituality, education, the entire system of preparing national talents , cannot solve political problems.

### THE MAIN FINDINGS AND RESULTS

For this purpose, we, the teachers and educational staff, should try to educate the young generation and show them the right way. At the current stage of building a legal democratic state, it is very important to educate the young generation as patriots. In order to achieve this goal, the professors and teachers of our institute, together with the employees of the spiritual department, are carrying out a number of activities. Events are being held on the topics of "healthy lifestyle", "sports health guarantee", "beauty of manners and intelligence".. Through the analysis of these topics, it is emphasized that today's youth should act as the true heirs of the past generations and ancestors, should act on the basis of the unique surfing habits and rules of etiquette of the eastern nation. After all, the national values of our great nation has a unique place in youth education.

The above and the positive changes taking place in our society in the forward movement of the reforms should be deeply understood by the general public interested in them, appropriate

changes should be made in people's world view and thinking, the restoration of our spiritual and moral abilities, the creation of a system of public education, universities, young Great attention is being paid to supporting talented people and taking care of the development of science.

In today's conditions, where our efforts directed towards the prospects of tomorrow depend on our spirituality, our thinking, our intelligence, the scope, level, and scope of our philosophical literacy, our work in this field is very important for us. Moreover, this work It is our debt to the pure souls of our ancestors, our task today and our responsible duty towards the future generation. We must turn every citizen of the people into strong pillars of the legal state.

### CONCLUSION

National anniversaries, holidays and the traditions and rituals that are part of them play an important role in human development and spiritual formation. It appeared due to life needs and expressed the people's lifestyle, mentality, spiritual world, dreams, and had a great impact on the spiritual and moral development of the society. Freedom, freedom, and peace are considered among the great values and are the dearest blessings. Therefore, preserving such a family blessing as independence is the sacred duty of everyone living in Uzbekistan.
